F7 CONTACT ZERO

CONTACT ZERO PANTS

We polled our top teams and heard one resounding request in a paintball pant – “less weight, more venting, same durability and great protection.”

The 2017 Empire F7 Contact Zero pants are lighter, 12½ ounces lighter to be exact! Almost a full pound of weight off your legs! A new Pro-Lite stretch abrasion resistant material makes this all possible. The Pro-Lites are less constricting, designed to help keep you cool, comfortable and unimpeded in the heat and humidity of the season.

Laser perforated ventilation at the rear of the pant encourages massive air movement and helps wick away moisture. Sonic welded seam tape adds to the strength and durability without adding weight. Adjustable ankles and waist allow for a truly custom fit.

Sometimes lighter weight translates to less durable; this is absolutely not the case for the 2017 Contact Zero F7 pants. These are made from the highest end fabrics & materials using the latest in manufacturing technology to make sure they last. There is no need to look any further; you have found the best pants in paintball.

HALO *TOO*

EMPIRE LOADER

The best performing paintball loader for the money. With a cost that is less than half the price of some top paintball loaders, the outstanding performance of this paintball loader will make this an easy choice for most players.

The ultra-quiet belt drive will force-feed 20+ balls-per-second, allowing your marker to throw plenty of paint at your opponent. The Freeway™ Anti-Jam keeps the paintball loader from jamming and breaking paintballs, so you'll still be shooting while others are busy scraping paint. The new, matte black polycarbonate shell can withstand any hit and can easily fit 180 paintballs.

BT-4 ⚡ COMBAT™ SLICE

Ever broken a paintball in your barrel? Of course you have, it happens to everyone. Just slide your squeegee down the barrel a couple of times and then start shooting again. Ever break a ball in the breach of your paintball marker? If so, that's a completely different situation. For most markers, that means a trip off the field to break down your gun and start cleaning. Not anymore. With the Empire BT4 Slice feature, remove the hopper and just pull one of the shell pins and open it up to get inside to clean. You can do it right there, on the field, while under air pressure.

No other marker gives faster access to the internals of your marker than the Empire BT4 Slice Combat paintball marker, also known as the BT4 Slice Combat paintball gun. This semi-auto baby has been made for years by Empire and has moved one step closer to the perfect paintball gun. Break it down in less than 15 seconds, give it a quick cleaning and be back fighting your opponents in less than 1 minute. Spend more time on the field and less time doing maintenance with the BT4 Slice Combat from Empire Battle Tested paintball.
