Our new and proprietary OIL-FREE BIOFILL™ formula line of paintballs contains the first and most environmentally friendly patent-protected alternative fill. It is based on a natural, food-based vegetable ingredient that, unlike oil, is friendly to the phreatic and soil water zones, the soil itself, as well as the field, playing equipment and gear. This ingredient takes easy-clean no-staining to a new level. It is renewable, neutral with respect to the "greenhouse effect", neither toxic nor polluting, and biodegrades faster and completely.

FEATURES

Our new and proprietary OIL-FREE BIOFILL™ formula line of paintballs contains the first and most environmentally friendly patent-protected alternative fill. It is based on a natural, food-based vegetable ingredient that, unlike oil, is friendly to the phreatic and soil water zones, the soil itself, as well as the field, playing equipment and gear. This ingredient takes easy-clean no-staining to a new level. It is renewable, neutral with respect to the "greenhouse effect", neither toxic nor polluting, and biodegrades faster and completely.

Ever broken a paintball in your barrel? Of course you have, it happens to everyone. Just slide your squeegee down the barrel a couple of times and then start shooting again. Ever break a ball in the breach of your paintball marker? If so, that's a completely different situation. For most markers, that means a trip off the field to break down your gun and start cleaning. Not anymore. With the Empire BT4 Slice feature, remove the hopper and just pull one of the shell pins and open it up to get inside to clean. You can do it right there, on the field, while under air pressure.

No other marker gives faster access to the internals of your marker than the Empire BT4 Slice Combat paintball marker, also known as the BT4 Slice Combat paintball gun. This semi-auto baby has been made for years by Empire and has moved one step closer to the perfect paintball gun. Break it down in less than 15 seconds, give it a quick cleaning and be back fighting your opponents in less than 1 minute. Spend more time on the field and less time doing maintenance with the BT4 Slice Combat from Empire Battle Tested paintball.

17120 - Empire BT4 Slice Combat

FEATURES

- · New Field strippable design simply remove ONE tool-less pin and the markers opens up for maintenance
- $\bullet\,$ Maintenance can be performed in the field while under air pressure
- Redesigned shells for tool-less access to all internals

EMPIRE LOADER

The best performing paintball loader for the money. With a cost that is less than half the price of some top paintball loaders, the outstanding performance of this paintball loader will make this an easy choice for most players.

The ultra-quiet belt drive will force-feed 20+ balls-persecond, allowing your marker to throw plenty of paint at your opponent. The Freeway™ Anti-Jam keeps the paintball loader from jamming and breaking paintballs, so you'll still be shooting while others are busy scraping paint. The new, matte black polycarbonate shell can withstand any hit and can easily fit 180 paintballs.

38582 - Empire Halo Too Loader

FEATURES

- 20+ bps
- Ultra-quiet belt drive
- $\bullet\,$ Freeway Anti-Jam for continuous ball feed

REACT PACK HARNESS

REACT PACK HARNESS

Need to keep it small? Locking Down a Lane? Load up with the REACT FT pack from Empire.

Are you one of those players who never knows from game to game or point to point where you might end up on the field? Do you hold it down in the back one game, then break the game open the next and hit the snake the point after that? If this sounds like you, the Empire React FT Harness is for you! Need to keep it small? or Carry a lot? Choose from the 3+6 or the 4+7 version.

Pod ejectors and easy-to-grab tabs help you grip, rip and reload quickly, while the heavy duty, adjustable Velcro™ strap is wide and comfortable, even while you're landing and crawling on it.

ACTION PACK HARNESS

ACTION PACK HARNESS

Durable, form-fitting and built to last, the Empire Action Pack paintball harness can carry all the paint you need to get you through anything from quick points inside the net to long hours spent creeping in the brush.

A no-slip lumbar pad keeps this pack exactly where you put it. Four pods are plenty for quick points or playing up front in the snake, but for longer games or woodsball events, get a big tank and haul 11 pods out there!

STRUKER

The Tippmann Stryker features a fully Electro-Pneumatic design that makes it one of the quietest and smoothest shooting spool-valve Tippmann markers ever designed. The Tippmann Stryker has a fully programmable board with firing modes including semi, burst, ramping and full-auto. These markers are tournament legal as they require an allen key to change settings.

All of the new Stryker markers are Autococker threaded so it will accommodate the majority of paintball barrels on the market. Not only is the marker well-built but the maintenance is extremely easy. Access to the firing engine is fast so you can get in, lube everything and keep your Stryker in top shape. The customizable design makes hundreds of accessories including lasers, flashlights, rails and scopes easy to install.

JT VORTEX 2 FAN

JT VORTEX 2 FAN

The Vortex 2 fan features a highspeed motor which extracts humid air from inside the goggle during game play. Is fog always winning no matter where or when you play? The first step to a fog free game of paintball is a thermal lens for you goggle system. The Vortex fan is a close second! Designed to circulate air inside the mask this little fan combined with a thermal lens will prevent fog in Alaska at 10°F, 120% humidity, and panting from a 100yrd sprint. These fans are so powerful you can play with them turned off, then once you fog up, switch them on for 10-20 seconds and completely remove fog from you lens. If your fan is loud just add a few drops of paintball marker oil to the drive shaft and its back to stealth hunting! If fog is your enemy, step up your game!

23214 - JT Vortex 2 Fan / Black

FEATURES

- 2-way switch to either blow air in or draw air out
- Fits all JT Elite and Spectra Goggle systems

AIRSOFT "MESH" GOGGLE

Tippmann Tactical brings a goggle that was influenced by one of the most comfortable goggle systems in the world, the JT Proflex. "Mesh" Airsoft goggle provides superior face protection using unique insert molding technology, giving the player a rigid upper section for maximum eye protection, while offering a sturdy mesh lower giving the optimum protection and breathability. The optically correct Spectra lens offers a 260° field of vision in a fog-free, dual pane construction. Soft ear pieces and a removable visor are also standard on the "Mesh" Airsoft Goggle.

The "Mesh" Airsoft goggle system offers protective mesh bottom skirt on the jaw that has been strategically designed to allow clear voice projection and increased team communication. Mesh lower skirt prevent fogging and increase breath-ability.
